

Unconditional Waiver and Release

For Honed, Satin, Leathered and Brushed Finishes

By signing this document, listed party fully understands that any product i.e. Natural stone or Manufactured Quartz; which has a honed, satin, leathered or brushed finish will require additional maintenance and upkeep.

Maintenance and upkeep such as but is not limited to; fingerprints, oils, food residue, staining, etching and more.

All stone has it's unique beauty and something to be admired. But when creating a 'non-polished' finish on the face you inherently will need to adjust your daily care and maintenance.

As a service I.V. Granite & Marble Inc. offers customers the option of sealing the stone with a commercial grade sealer that will mitigate the majority of issues you will experience with such finishes. This service is charged by a sq. ft. calculation based on the stone and ratio needed. It ranges near the \$5/sq. ft. mark. If this is something you wish to participate in, you will need to make a formal request to I.V. Granite & Marble Inc. However this document is still required and will need to be signed prior to material being sourced from distributor.

One of the most important components to any project is to have all necessary and pertinent information so you're able to make well informed decisions that also give you appropriate expectations, thus making your experience with the product most enjoyable. Because you've eliminated unnecessary surprises.

At I.V. Granite & Marble Inc. we value each and every project we partner with. Honesty and trust are vital ingredients to healthy transactions. If you have any questions, please don't hesitate to contact us.

Kindest Regards,

I.V. Granite & Marble Inc
